### Abstract

During the last two decades, educational reforms have had to do with programs, texts, achieving objectives, the new high school curriculum, M.SH and teaching models. This is a hidden issue, but more disturbing recent violence in Albanian schools. It is clear that violence prevails not only in school, but there is a lack of understanding as to the causes underlying this phenomenon, the impact it has on the lives of children and possible ways to tackle this problem, which affects thousands of students in days. Since the bullying day - the day of cases is increasing, so is the duty of all responsible institutions, to investigate this negative phenomenon. Measures to prevent adding professionalism, sound education and the right professional to advise on the youth and adults. Children do not lose their human rights by overcoming the threshold of the school. Thus, for example, education must be provided in a manner that respects the inherent dignity of the child, giving the child the opportunity to express his views freely and to participate in school life. Education should be provided in a manner that respects the strict limits on discipline and promote a culture of against violence in school. The talent is developed skills in the highest degree. This gifted child born should be supported to enable him to be great in science, art, social life, etc.. Should know the nature of the students and enable them cope with life's challenges. The choice of profession and career are two of the most important decisions for human life. Inadvertently and unconsciously through violence we enslave drowned talent and great scientist, famous artist, military strategist. I object to violence because when it appears and do good, the good is only temporary, and when it is evil, evil is eternal!

**Key - words:** Violence, defense system of children, law, education

This study builds on previous findings of many scientific materials and know their values. What I want to do through this study is to go beyond current information, to explore ways to further a comprehensive approach and existing activities.

I saw the need to review, gather, to consolidate and update the literature to my knowledge on this issue through group discussions, interviews, discussions with key informants and focus on the issue as it is seen by children reaching a good level of understanding as to the reasons that lie at the basis of school violence, which is an issue that has just begun to be addressed.

Violence against children is the worst form of violence and intolerable to a human being, and this phenomenon affects all societies, systems and countries, whether wafer, developing or developed, and is extended to family, school, road and society.

It is no accident that the United Nations has decided to schedule two consecutive days of remembrance and awareness for the whole world, 19 November - World Day for Prevention of Abuse and Violence against Children and 20 November - International Day for the Rights of Child "

What is the physical and psychological violence?

When exercising national and international laws to protect children?

Where should act Child Protection System, programs, education policy, civil society and the media to physical and psychological violence?

Why can't stop violence in schools, where we can send humans to the moon?

How much and how to treat physical and psychological violence in schools in teaching?

#### Definition of search

\* Violence is defined by the World Health Organization as the intentional use of physical force or power, threatened or actual use of it against yourself, another person or against a group or community that either results in or is likely to result in injury, death, psychological harm, or bed development power.

Loss of self psychology

The use of violence as an instrument of discipline.

response to: disobedience, unrealized plans, lie, disagreement with one another, violating the rules, love, misunderstanding of the child.

## Forms of physical violence

### Forms of bullying

About 60 percent of the population are Internet users. Facebook has 1.3 million users, or in other words more than 78% of the online population are active in social networks. If we analyse the data for the age of social networking users, it turns out that most of them are young people under 24, under 18, so 15% are 15-17 years and 6% at age 13-15 years.

Increased aggressiveness seen higher in boys aged 14-18 years.

14% engage in "Teen Dating Violence"

Children should be educated in order to protect them.

Internet-violence is to model behavior and way of thinking. It increases the level of verbal and nonverbal aggression, beginning to manifest to other children or young peer '

Media treats the phenomenon of violence that is used against children in episodic. It has left without cover more moderate forms of various types of violence against children and is interested in severe forms. In many cases, the print and electronic media has treated this phenomenon without observing professional ethics, so noisy and profit.

## SWOT Analysis

Options

Cooperation with associations, lifelong learning, licensed teachers, the school culture, the new high school curriculum .. professional potential, motivation of staff, education reforms, strategic plans, no ethnic discrimination, the school self-evaluation, ...

### Limitations

Centralism AEM-RED-school, lack of psychologists, social administrators and security personnel, lack of activities, student government dysfunctional, untransparency , .... Lack of Child Advocate, incongruity traditional teachers, lack of information, lack of students in decision-making, and lack of training misuse their recently untransparency, ...

Achievements

Child code, public agencies reporting, psychological services, security personnel and psychologists, school uniforms, ...

Risks

Lack of facilities, poor success, abandonment, asocial and antisocial personality.

Conclusions

The absence of national legislation, national policies and structures consolidated.  
Lack of readiness among professionals to talk about violence against children.  
The low level of reported cases of violence due to weaknesses in the child protection system.  
Clear differences between sectors in terms of identification, registration, reporting and referral of violence.  
Low scores on tests of MH.

#### Recommendations

Commitment and action to strengthen national and local levels.  
Prohibit any kind of violence all violence against children and prioritize prevention.  
To promote non-violent values and awareness raising.  
To increase the capacity of all those staff who work with children.  
Provide social services, psychological and counseling.  
Establish reporting systems and services accessible and tailored to children.  
Ensure participation of children.  
Television is not a "baby sitter" - child care.  
Society to be protected and not be influenced by material found in the media and Internet.  
Reducing virtual time ekstrakurikulare activities for a real product.  
Reformation of the school's mission: education and social role.

Have Kills!
